Testimonials

MERIDIAN, MISS., June 26, 1890.
MR. J. G. THROWER, *Atlanta, Ga.:*

Dear Sir: Having thoroughly tested, and in fact used one of your Lifting Machines for some time, I feel it my duty as well as pleasure to express my appreciation of this wonderful invention. My mother has been unable to walk for over two years, and as she weighs about 275 pounds, I had to keep two stout women hired to wait on her. Since I got the Machine, the cook with the assistance of any of the five, seven or eight year old little girls can handle her with perfect ease to the cook, and much more so to mother than two women could. It is a great economy, to say nothing of the extra ease with which you can handle a person. The extra woman cost me $5 per month and her board, which is, to say the least of it, worth $10. $15 per month, or $180 per year. It will pay for itself the first year and have $130 clear profit left. Wishing you success, I am yours truly,

THOS. M. FERGUSON.

MR. JAMES G. THROWER:

Dear Sir: I take pleasure in recommending Mr. Thrower's Lifting Machine to all helpless invalids. For six years I have been confined to a wheel chair from paralysis, requiring two stong servants to lift me. Being induced to try his Machine, I have fonnd it of inestimable benefit. A child can lift or lower me with ease and without pain or distress of any kind to either of us, and I feel happy in my freedom from the bondage of servants. I would not part with my Machine for anything, snd I feel grateful to the kind friend of the suffering whose heart and brain originated this humane invention.

MRS. M. T. CASTELBERRY.

ELBERTON, GA., July 14, '90.
J. G. THROWER, *Atlanta, Ga.:*

Dear Sir: The Machine came duly to hand, had no trouble in putting together. We tried the working of it this morning with perfect success. It w s the first time my mother has been off the bed in (11) eleven weeks. You can imagine how relieved she was * * Aug. 22, '90. "As to the working of the machine, I don't see how we could have gotten along without it. We use it nearly every day, and it rests her so much, and then the bed feels so much better when she lies down after being made up and aired well.

I am yours truly, B. B. BRASWELL.

GRIFFIN, GA., Sept. 23. 1890.
J. G. THROWER, *Atlanta, Ga.:*

Dear Sir: I was thrown from my buggy in June and my hip was broken. I could not be moved except by the assistance of four (4) men and then with much pain. I received one of your Lifts and Supports, and was then moved with the greatest ease and satisfaction. Your invention is a blessing to invalids. I do not see how I could successfully have passed through the ordeal without the aid of your invention. I most cheerfully recommend it.

M. J. DANIEL, M. D.

WILSON'S

Complete Method for the Piano-Forte.

An Entirely New Book, Very Simple, Clear, Concise and Progressive.

Particular attention is called to the many additional features of this work not found in similar publications.

IT CONTAINS a complete and lucid description of the rudiments of music.

IT CONTAINS musical writing lessons of great value to the beginner in acquiring a proper knowledge of the value of notes and rests, their position on the staff, etc.

IT CONTAINS numerous illustrations showing the correct position of the fingers, hands and arms.

IT CONTAINS a collection of instructive and entertaining four-hand exercises for Teacher and Pupil. A great assistance in acquiring the habit of observing correct time.

IT CONTAINS many carefully selected solos in every style of playing, mostly new and popular for study and recreation.

IT CONTAINS a dictionary of terms and expressions used in music.

In fact every subject is treated concisely, yet thoroughly and completely.

Wilson's Complete Method is printed in the best style, from new plates, on fine quality of paper, has been very carefully prepared and revised, and consequently free from errors. We claim it to be the ***Most Complete Method*** now in the market, and invite a careful examination of its many departments.

The **Standard Rotary Shuttle Sewing Machine,** the only radical departure from old principles for 20 years, is without a peer for what is needed in a Sewing machine —

Light-Running, Noiselessness and Rapidity.

Awarded First Premium at Birmingham, Ala., 1890; not exhibited this year. Two Premiums, Montgomery, Ala., 1890, not exhibited this year. Five Premiums on Machines, and premiums on 21 different pieces of Fancy Needle-work, at Piedmont Exposition, 1891. In addition to this, the following is a voluntary certificate from the Committee on Awards:

Atlanta, Ga., Nov. 5, 1891

Standard Sewing Machine Co., Atlanta, Ga.:

Gentlemen: We find the Standard Rotary Shuttle Machine to be the **Best Constructed,** of **Best Material,** and **Finer Finish** than any machine exhibited at Piedmont Exposition, 1891, and **Award you Five Premiums.**

W. C. SHEARER,
W. T. ROFFE, Judges of Machinery.

We challenge competition with any machine in existence.

BEFORE INSURING YOUR LIFE

INVESTIGATE

THE LIFE RATE ENDOWMENT PLAN

OF THE

Union Central Life Insurance COMPANY.

By this Plan not only are the dependent ones provided for in case of death, but provision for the later years of the insured himself is made, if he lives.

The people are demanding this kind of insurance, so that all the leading companies are endeavoring to give them policies that contain at least some of the principles of our plan. But there is no plan yet so simple as the Life-Rate Endowment, such as the UNION CENTRAL has been issuing for so many years past.

We simply charge the ordinary life rate, the same as charged by this or any other company; the policy-holder pays the same amount each year, the dividends with all the accumulations remaining with the Company to the credit of each policy. In other words, we keep an individual account, in a business way, with each policy, taking the premiums paid, and all its share of interest and all profits of every description, and from this deducting each policy's share of the death losses and expenses, and when the policy has become self-sustaining, or when the policy has become matured we pay it in full. We never make any partial settlements; our policies, whether paid at death or maturity, are paid in full for the whole amount insured. It is not every one who can afford to pay the high rate charged by the different companies, but any one can afford to pay the ordinary life-rate for a policy, either with limited payments or otherwise, so our Life-Rate Endowment Policies are within the reach of all, and there is no other company in the field that issues a policy of the same kind that will be paid in full as an Endowment in the same time, and at the same price, nor one in which the profits are so large.

Examine the manifold advantages of the

"LOW RATE TERM PLAN"

of this Company. It is easier to place insurance on this plan than on any plan ever before offered, and the policy itself is the most liberal and equitable contract consistent with recognized business principles. The marked success already achieved by this plan shows that it fills a want long felt by the insuring public.

The Company also issues all approved forms of insurance.

Policies are non-forfeitable and indisputable. Claims are paid immediately on presentation of proofs.

THE NORTHWESTERN
Mutual Life Ins. Co.

"The · Policy-holders' · Company."

WHAT YOU WANT IN LIFE INSURANCE IS

1. An Old Company.
2. A Solid Company—One that has a large surplus to make good its contracts.
3. A Purely Mutual Company—No stockholders to fatten.
4. A company where the profits all go to the policy holder.
5. A company that has a liberal contract.
6. A company you or your friends have known for years.
7. A company that does not discriminate against its Southern members.
8. The "NORTHWESTERN MUTUAL" is what you want. It is old, solid, purely mutual, does not discriminate against Southern members, and pays larger dividends than any other life company.

ASSETS, (about) - - **$47,500,000.**
SURPLUS, (about) - **$7,500,000.**

PAYS LARGER DIVIDENDS THAN ANY OTHER LIFE COMPANY.

Gammon Theological Seminary

Offers to all Students for the Christian Ministry the Following Advantages:

A course of study as thorough, extensive and well-arranged as that of any institution in the country. Four Professors who devote their entire time to the work of Theological Instruction. Elegant and complete Library Building, with a library of over 7,500 volumes. Fine Theological Halls, with free rooms and free tuition. A location in the Gate City of the South, accessible, healthful, and offering unsurpassed advantages to the student. The present attendance of over 70 ministers and candidates represents 13 States and 24 colleges and academies.

WHAT EMINENT MEN SAY.

DR. J. M. BUCKLEY says, in the *Christian Advocate:* "Here I saw a system of instruction going on which cannot but make the candidates for the ministry intelligent, practical and dignified men. It is difficult to express, without the appearance of extravagance, the satisfaction I felt with the methods and work here seen."

DR. ATTICUS G. HAYGOOD: "It is to be questioned whether any single institution under the care of the Methodist Episcopal Church holds a place of impor ance and responsibility equal to that which is possible to the Gammon Theological Seminary. * * * * It may well be questioned whether any single institution in the Southern States could not be better spared."

ATLANTA UNIVERSITY,

ATLANTA, GEORGIA.

To Students:

Atlanta University offers an education in all studies from the Primary School up through Grammar, Normal and Collegiate Courses, together with industrial training in Carpentry, Blacksmithing, Farming, Printing, Cooking, Sewing and Dressmaking, at a total cost of from $80 to $100 a year for each student, including furnished room and board for eight months.

To Capitalists:

The education which Atlanta University gives to the needy people of the South, renders your investments in this region more secure, increases the demand for the merchandise which you desire to sell, and renders more intelligent and efficient the labor that you employ. An endowment of at least $500,000 is needed to put the institution on a secure and permanent basis.

THE NEW WEBSTER'S DICTIONARY

A GRAND INVESTMENT FOR FAMILY OR SCHOOL.

The Authentic Webster's Unabridged Dictionary, comprising issues of 1864, '79, and '84, (still copyrighted), has been thoroughly revised and enlarged, under the supervision of Noah Porter, D. D., LL. D., of Yale University, and as a distinguishing title, bears the name

WEBSTER'S
International Dictionary.

The work of revision occupied over ten years, more than a hundred editorial laborers having been employed, and over $300,000 expended before the first copy was printed. Every page has been treated as if the book was now published for the first time.

Critical comparison with any other Dictionary is invited.

Sold by all Booksellers.—Descriptive Pamphlet free on application.

Caution is needed in purchasing a dictionary, as photographic reprints of an obsolete and comparatively worthless edition of Webster are being marketed under various names and often by misrepresentation.

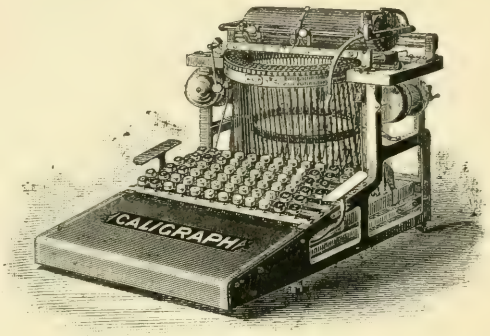
"The Caligraph" Writing Machine.



"IT · STANDS · AT · THE · HEAD."

Whenever you receive a proposition for a type-writer, kindly bear in mind that the "CALIGRAPH" is the best ALL ROUND machine for the following reasons:

HIGHEST SPEED—(Always ready to prove it in a fair test.)
LIGHTEST RUNNING—(No paralysis for *our* champions.)
BEST MANIFOLDING—(Toronto, August 13, 30 per cent ahead.)
LEAST NOISE—(One reason telegraph operators prefer it.)
SHORTEST STROKE—(Saving time and labor.)
MOST DURABLE—(Only machine guaranteed two years.)
STEEL TYPE (No rubber bands or type to give out.)
NO UPPER CASE 'SHIFT" (Hard to make two motions as easily as one.)

Easily Learned---$85.00---Popular Price.

The reason we can care for our instruments *two* years, free of charge, is because the Caligraph type-bars respond to but one type and wear twice as long as machines "shifting" for upper case, where each bar must respond to two types; (a horse can haul one ton more easily than two tons.)

These facts will help you *protect your interests* when drummed on the type-writer question, if not already posted, and we trust, when in the market for a writing machine, you will, at least, give us a call. We make no charges whatever for instructing customers fully.

Type-Writer Supplies. Machines Rented. Copying Done.

Our instruments attract people by the qualities they display, they retain them by the qualities they possess.

INTRODUCTION.

CONSIDERING the large amount of extra work entailed in consequence of the complete change in street numbers throughout the city, it is gratifying to me to be able to present this sixteenth volume of the Atlanta City Directory promptly on the first of the year. This book contains 1,363 pages and 32,426 names, representing a general increase in the population of the city of over ten thousand during the past year. The careful census made from house to house during the canvass, shows the present population to be 102,696 of which number 96,891 are located within the city limits, which, to be exact, embraces all the territory lying within a radius of one and three-quarter miles from the Union Passenger Station. There is no other explanation of the very large increase during the last year, except that the whole ten thousand are new-comers, and as the compilation shows that during that time nearly five thousand moved away or died, it really indicates an advent of fifteen thousand. This increase is not confined to any locality, but is general throughout the entire city, and not only do the residence districts show exceptional growth, but there has been a noteworthy increase in fine office and commercial buildings.

The period during which I have published the City Directory here has been one of steady, uninterrupted growth, but in no year has the percentage of increase been so great as in 1891.

As a compendium of valuable—or perhaps it were more correct to say invaluable—information the Atlanta City Directory can scarcely be excelled. It is a complete work of reference and guide to the city. The Street Directory is a feature comparatively new and but few cities possess it. This portion of the work consists of 230 pages, and in addition to showing the new number and name of occupant at each house; shows also—for this year only—the old street number. Following this is the regular alphabetical list, or directory proper, comprising in 861 pages the names of all the adult male residents, with their occupation, place of business, and residence at the new street number. The hundred pages of Business Directory which follows this is specially valuable, for it is an epitome of Commercial, Manufacturing and Professional Atlanta, is particularly complete and reliable, and is that portion of the work to which visiting strangers turn for information as to our various industries. The Miscellaneous Department at the end of the work contains complete lists of churches, schools, societies, a perfect Lodge Directory, circuit court calendar, etc., and much other valuable information to be found only in this work.

I realize that in publishing the Annual Directory here I am and have been, in a measure, identified with the record of Atlanta's growth and progress, and to some extent responsible for an accurate and truthful exhibit in this regard. I have tried to meet this responsibility with increasing effort from year to year, and the fact that these efforts are appreciated is evidenced by the very liberal patronage annually accorded my publication, and it will be my aim to avail myself of every opportunity of improving the work and making it more popular and more necessary with each succeeding issue.

H. G. SAUNDERS.

ACADEMY

——OF THE——

Immaculate Conception,

Atlanta, - Georgia.

THIS Institution, founded in 1867, and incorporated with all the rights and privileges of an Academy, is a Boarding and Day School, under the direction of the Sisters of Mercy.

The Academic year commences the first Monday in September and closes about the end of June. It is divided into two sessions—the first commences in September and the second in February.

The course of instruction embraces two departments, viz: 1st. The Preparatory Department. 2d. The Senior Department.

The Preparatory Department, which comprises seven classes, is completed in seven years. It consists of three Primary, two Intermediate and two Grammar classes.

The Senior Department, which comprises four classes, is completed in four years. It consists of the first and second Senior classes and Graduating class.

Venereal and Urinary Diseases;
W. S. ELKIN, M. D.

EVERY variety of disease and injury receives appropriate treatment in this establishment under the care of the above named members of the professional staff. The internal administration is carried out promptly by an efficient matron and faithful nurses in each department. This institution has all the improved appliances for the comfort and convenience of its inmates, and affords every facility of a first-class private hospital. It is fully equipped and prepared to accommodate male and female patients, including children, and has a lying in department for respectable ladies.

The building has been completely remodeled, and entirely refurnished with the latest styles of ash and cherry furniture. The rooms are large and well ventilated, with open fire-places, and lighted with gas.

The outfit is complete in all respects, with the modern improvements in water closets, bath rooms, hot and cold water, etc., giving an air of homelike comfort for the sick.

One of the staff is in daily attendance to provide for any emergency that may occur in the Infirmary, and the inmates may rely upon careful nursing and skillful medical treatment.

Letters of inquiry as to the admission of patients and the terms of board, or charges for professional services, may be addrssed to any one of the staff, or to the Providence Infirmary direct.

Nothing has been overlooked in the construction of these vessels, and their fine model, full power and EXCELLENT SEA-GOING QUALITIES, have won for them the enviable reputation they possess. Passenger accommodations, both cabin and steerage, are unsurpassed. Staterooms being above the main deck are light, roomy and thoroughly ventilated, thus assuring to the traveler the greatest degree of confort attainable.

Connections are made, at all the ports at which these steamers touch, with all railroads and steamboats.

Through Coupon Tickets are on sale, and Through Rates of Passage and Freight are named to interior towns and cities, including those of California Mexico, New Mexico and Arizona.

No other passenger steamers run between New York and the ports named above.

ON SHORT NOTICE,

SATISFACTION GUARANTEED.

CAN REFER to some of the first people of Atlanta for whom I have erected buildings.

IF YOU wish to put $3000.00 in a building, I can make your plans so that the building will not cost you over the amount you wish to put in it.

ALL of those I have built for are my references.

PRESIDENT. WILLI[illegible] VICE PRESIDENT. SECR[illegible]

BROOKLYN LIFE INSURANCE COMPANY,

OF NEW YORK CITY.

Dr. T. F BREWSTER, State Agent. *21 Old Capitol.*

ATLANTA, GEORGIA.

WHEN you carry your grist to mill you are no way concerned about the salary of the head miller. What concerns you is the amount and character of the returns you get.

The mission of a properly conducted Life Insurance company is to fulfil all its policy contract obligations; and not only to pay the losses to beneficiaries promptly at death, but to treat its policy-holders with liberality while they live. The performance of this mission in a liberal and equitable manner makes Life Insurance the munificent beneficence which it really is.

The Brooklyn Life, which has been notable for liberality to policy-holders and great conservatism of administration, stands at the top.

During the fifteen years ending January 1, 1890, it paid out to policy-holders in endowments, dividends, death-losses, etc., more money than was received from all its policy-holders during the [illegible] said period; and this would seem to a careful observer to be a record which, backed up by financial integrity and other points of commendable management, exemplifies all that is desirable in Life Insurance.

It has, by conservatism of general administration, by successful and skillful conduct of financial affairs, by liberality to patrons, and by all the details of careful and prudent management generally, made an unblemished repute for itself and brought [illegible] of Life Insurance.

For Rates, Plans and Terms to Agents, apply to

T. F. BREWSTER,

STATE AGENT FOR GEORGIA.

Room 21, Old Capitol Building.

Circular.

Having all the latest styles of new Type and Borders, and best Presses, and employing none but first-class workmen, we are confident that we are better prepared to meet the wants of our friends and patrons in the line of Fine Printing and to execute the same in a manner equal, if not superior, to any other office in the city.

We shall endeavor at all times to execute the Best Work, use the Best Stock, and our prices shall always be as low as the times demand, and we ask of you an examination of our work and prices, feeling confident you will appreciate both.

Thanking our friends and patrons for past favors, we assure you we will labor earnestly in the future to merit a continuance of the same.

All work executed promptly.

Very Respectfully,

The Mutual Printing Co.

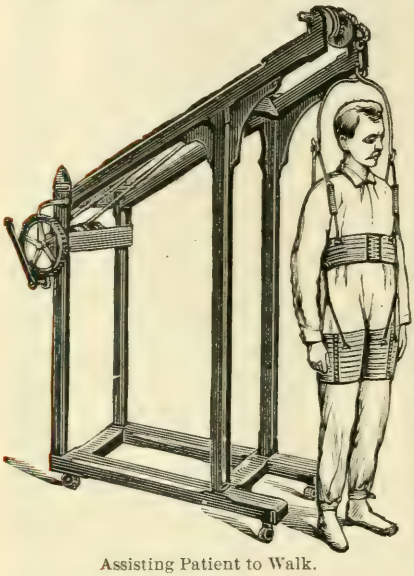
J. G. THROWER'S INVALID LIFT and SUPPORT



Assisting Patient to Walk.

ATLANTA, GA.

Compliment from the New York World.

A BOON TO INVALIDS.

"At the Piedmont Exposition Mr. James G. Thrower, of Atlanta, had on exhibition what is probably the most remarkable piece of mechanism ever conceived for the painless and easy handling of invalids. It is an invalid lift, by which a person afflicted with paralysis or other disability can be moved in any position, from upright to horizontal with no pain to the sick and little effort on the part of the manipulator. In fact it can be operated by a child. It lifts the invalid from the bed, holding him in an easy position at any angle, and moves him from the bed to a chair or about the room. It takes the patient from a chair and straightens the limbs ready for bed bath or any position desired. It is very simple in construction, but performs its work with almost human intelligence. Mr. Thower intends to put it into the hands of some leading concern making a specialty of appliances for invalids. In my estimation this comes in the line of important sick room adjuncts and should receive the immediate attention of a metropolitan agency for such things.

From The Atlanta Constitution.

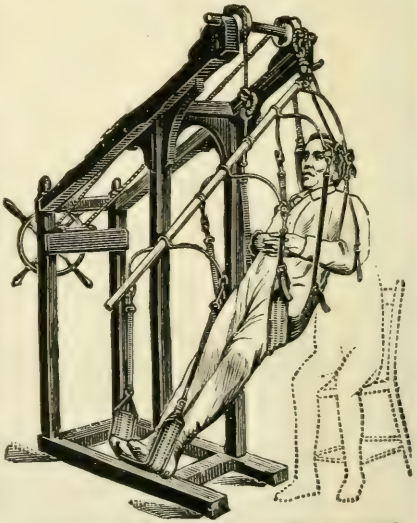
Mr. J. G. Thrower's Invalid Lift.

He Has Been Granted a Patent on His Valuable Invention. A Word of Praise.

The Constitution has long since discovered the merits of Mr. Thrower's invention, and now congratulates him on the fact that advices from the patent office, at Washington, inform him that his claim for a patent has been allowed.

Mr. Thrower's arrangements are being perfected for the manufacture of his machine on a large scale.

He has had his invention in use for about two years in his own home. It has proven such a boon that he decided to put it on exhibition, for the benefit of those who are incapable of physical exertion as well as those who have the care of them. It is a wonderful device for lightening labor and easing the pain of invalids and nurses. The machine lifts the invalid in any conceivable position with the greatest ease and comfort, and in this lies its peculiarity and superiority over all other simular contrivances. Mr. Thrower has a dumb figure on exhibition with the apparatus, showing how the different muscles and movements of the body are provided for in the construction and operation of this invention.



From Chair to Bed or to any position requiaed.

For further particulars write the inventor or call and see the machine in operation at 9½ Alabama St., Atlanta, Ga.

ATLANTIC ELECTROPOISE CO.

——AGENTS FOR——

District of Columbia, Virginia, North Carolina, South Carolina and Georgia.

ROOM 45 GOULD BUILDING, ATLANTA, GA.

The Electropoise Acknowledged to be the most marvelous discovery of the age. Its remarkable cures of diseases, in an unusual short period, which had baffled the skill of eminent physicians, is verily amazing. An instrumentality by which nature asserts itself; it does its work quietly without medicine or the least pain or inconvenience. All those suffering from disease of whatever character, apparently incurable, should not delay in applying this certain and pteasant remedy. It will be one of the most important and interesting attractions to be inspected during your stay in the city, if a stranger, and if not, you should lose no time in making yourself acquainted with the merits of this remarkable instrument, Thermal electricity by induction is the theory, causing the whole system to absorb from the atmosphere oxygen in unlimited quantities, the fusion of this oxygen with the other gasses of the body causing all diseases to be thrown off, and adding vital force to an unlimited extent. The ELECTROPOISE does not only cure, but it is a preventative of disease; therefore the whole human family must be and is directly interested in it. We request all persons afflicted with any malady to call at our office for personal information and directions as to the method of treatment. W. H. WITHERSPOON, Prest.
